PRESS RELEASE

TULSA, OK – April 15, 2012 - iMirus is thrilled to announce that our Android app is launching this month! Building off the same functional design of the iPad private-branded app, users have all the same features and functionality of the iPad such as iFrames, Dynamic Ads, world-class navigation, and much more. Like the iPad, the Android platform integrates with the entire suite of iMirus services.

To get more info on iMirus mobile applications, please email info@imirus.com.

About iMirus

iMirus develops private-branded iPad and Android apps for publishers and corporations. Its platform combines frequency-based print and rich media with real-time Web and social-media content.
